This application is in condition for allowance except for the following formal matters:

The examiner of record respectfully requests the cancellation of non-elected claims 32-43. Conclusively, claims 14-31 are allowable over the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Allowable Subject Matter

Claims 32-43 are allowable over the prior art of record. The prior art of record does not disclose or suggest, *inter alia*, a multi-lumen catheter including a working fluid transfer pathway, a first manifold for connecting the multi-lumen catheter to a return pathway, a heterogeneous and compliant heat exchange portion connected to the first manifold, a heat exchange portion having a plurality of dynamic surface regions that provide internal and external boundary layer disruption, a second manifold connected to the heat exchange portion that distributes the working fluid through the heat exchange portion, and a high frequency working fluid pressure oscillator adapted to create surface dynamics in the heat exchange portion.
